# Our Services

01

## Tile & Stone Installation

Formaxx offers precision-driven tile and stone installation services tailored for both aesthetics and durability. We use high-quality adhesives and modern tools to ensure superior bonding strength, level alignment, and seamless finishes across a variety of materials such as ceramic, vitrified, granite, and marble.

02

## Grouting Solutions

Formaxx provides premium grouting services using high-performance, stain-resistant, and flexible grouts suitable for all kinds of tile installations. Our grouts come in a variety of vibrant colors to complement your tile designs while offering strong adhesion, crack resistance, and moisture protection.

03

## Waterproofing

Formaxx delivers comprehensive waterproofing services to protect buildings and structures from water damage, moisture penetration, and structural decay. Our team uses advanced techniques including membrane coatings, liquid-applied sealants, and cementitious barriers designed for both horizontal and vertical surfaces.
